

Md Eaman Adeep

(AI and Full Stack Developer)

Portfolio: <https://portfolio-rouge-eight-85.vercel.app> | GitHub: <https://github.com/Eaman006> | Mobile No: +91 9330703931 |

LinkedIn: <www.linkedin.com/in/md-aman-adeep-219628278> | Email: amanadeep006@gmail.com |

Address: 689, Shyamali Bhaban, Dakshin Madhya Fartabad, Garia, Kolkata – 700084

Educational Qualification

- Vellore Institute of Technology (VIT), Bhopal** 2023-2027
Bachelor of Technology (B.Tech) in Computer Science and Technology Core
- B. D. Memorial International** 2021-2023
CBSE (AISSE) Class 12
- B. D. Memorial International** 2009-2021
CBSE (AISSE) Class 10

Experiences

- Deccan AI Experts** August 2025 – July 2026
AI Model Analyst and Trainer (Remote)
 - Evaluate and debug complex AI-generated code snippets in **Python** and **Java** to ensure functional correctness and efficiency.
 - Conduct **RLHF (Reinforcement Learning from Human Feedback)** by ranking model responses, directly contributing to the reduction of syntax errors and logical hallucinations.
 - Analyze technical prompts to identify edge cases, improving the model's ability to handle advanced algorithmic queries.
- Scaler AI Labs** November 2025 – July 2026
Data Annotator (Remote)
 - Label and structure high-volume datasets to support machine learning pipelines, ensuring data integrity for model training.
 - Utilize annotation tools to precisely categorize data points, contributing to the development of robust predictive models.
- Tata Steel Ltd. (Jamshedpur)** May 2026 – July 2026
Internship
 - Fundamentals of Artificial Intelligence and its application in Steel Manufacturing

Certificate: - <https://drive.google.com/file/d/1D98-3mbMKiL30GSHjPXPP6imQFPZzzhL/view?usp=sharing>

Internship Training

- Google IT Support Professional** February 2026 – March 2026
Certification: <https://drive.google.com/file/d/1kcs1Pc38hu4oHPQmfRhMEwuNdFIJwNp4/view?usp=sharing>
- AWS Certified AI Practitioner | Organization: Ethnus (Bangalore)** May 2025 – July 2025
Certification: <https://portfolio-rouge-eight-85.vercel.app/certification/ethnus.pdf>
- GEN AI using IBM Watsonx | Organization: IBM** May 2025 – July 2025
Certification: <https://portfolio-rouge-eight-85.vercel.app/certification/gen.pdf>
- Google Cloud Professional (GCP) | Organization: Google Arcade Certification** November 2024 – July 2025
Certification: https://www.cloudskillsboost.google/public_profiles/a9ef542a-6289-4f5c-979c-63f12a3d194a

Projects

- FactGate (GitHub Link: <https://github.com/Eaman006/FactGate>)**
 - Architected a multi-tenant SaaS application using Next.js and Flask to ingest complex PDF documents, extract structured claims, and reconcile conflicting data.
 - Engineered an AI pipeline integrating Gemini 2.5 Flash to map extracted facts directly to verbatim source evidence, eliminating LLM hallucinations.
 - Implemented secure Google Authentication via Firebase with strict database isolation in SQLite, and designed an interactive 3D UI using Tailwind CSS and Framer Motion.
- TalentSync (GitHub Link: <https://github.com/Eaman006/TalentSync>)**

TalentSync completely automates the top of the hiring funnel using state-of-the-art LLMs and Semantic Search.

 - Candidates drag-and-drop their resume. Gemini 2.5 Flash natively reads the PDF, extracts structured JSON data, and immediately initiates a pre-screening chat to assess their interest and salary expectations.
 - Recruiters paste a Job Description. Our vector database instantly performs a cosine similarity search against all candidates, returning ranked matches alongside AI-generated explanations of why they fit the role.
- Zomato Data Analysis (GitHub Link: <https://github.com/Eaman006/Zomato-Data-Analysis-Using-Python>)**
 - Conducted exploratory data analysis (EDA) on large datasets to identify dining trends and customer preferences.
 - Visualized complex correlations using Matplotlib and Seaborn, providing actionable insights into restaurant performance metrics.
- Turant (Community Service Platform) (GitHub Link: <https://github.com/Eaman006/Turant>)**
 - Developing a hyperlocal community service platform for Kothri Kalan using Next.js for SSR and Supabase for real-time database management.
 - Designed a scalable schema to handle user requests and service provider matching, focusing on low-latency data retrieval.

- **Campus Navigator (GitHub Link: <https://github.com/Eaman006/Campus-Navigator>)**
 - Architected a college navigation system integrating a Next.js frontend with a Flask backend to optimize intra-campus travel.
 - Implemented Firebase Authentication for secure user access and utilized SQL to manage complex pathfinding data.
- **Automatic Attendance System (GitHub Link: <https://github.com/Eaman006/AutomaticAttendanceSystem>)**
 - Built Using OpenCV and face_recognition in Python and take Attendance precisely with date and time.
- **Task Manager (GitHub Link: <https://github.com/Eaman006/Task-Manager>)**
 - Schedule your daily task and set your goals to complete those task

Skills

Technical Skills

- **Languages:** Java, Python, C++, C, Html, CSS, JavaScript
- **Web Technologies:** React, Next.js
- **Cloud Technologies and Databases:** AWS, GCP, SQL, SQLite, MongoDB, Supabase, Firebase
- **Machine Learning Technologies:** Pandas, Matplotlib, Seaborn, Scikit Learn, PyTorch, NLP, Prompt Engineering
- **Tools & DevOps:** Docker, Git/GitHub, n8n, Jupyter Notebooks, VS Code

Soft Skills

- Presentation
- Leadership
- Public Speaking

Achievements

- Won an Intercollege Hackathon
- Finalist of an International Hackathon
